

NW III : Epilogue

The Final Destination
We found the gone issue
Horrible Aberration
All Nations' Death & Country Come
Spilling Blood And Gaining Fame
The Swell Of Our People
Torturing Their Rash
Like Dying Their Rash
Straight To The End Of Life
We met the First in line
We met in a Chastly State
Witnesses Of The Great Decline
Origin Of A Distasteful War
That came to us near
No life left to us to fear
But so much to us to fear
We found the formula to escape
The blue have led the blind
A few millions passed and to one is left behind
Nation Against Nation - Humanity is left behind

The Sun No Longer Rises
Life In Eternal Dark
Mankind's Mindless Dances
We came off Noah's Ark
Paradise Turned Into Hell
We called it Hell, but it was
We drank from the same
And our bodies became sore
We think our God is
A lie we used to
Mother Nature who we
And it's getting
Toxic Wounds are bleeding on
Noble Lords are
World war's end
Lead us straight into despair

We found the formula to escape
A few millions passed and to one is left behind
Nation Against Nation - Humanity is left behind
Adapt Appalling Wreath
Come To Terms With Fate
We'll stay scarred
My eyes are tired, my feelings dull
My taste is dulled, my feelings cold
Wounds will be cured but the pain will last
Forever Children Of The Horseless Beast
